regulatory excellence

1. Regulatory Excellence

Through equitable, transparent, timely, effective and objective regulatory processes, the CRNS demonstrates regulatory excellence the public can rely on. We provide regulatory excellence through promoting good practice, preventing undesirable practice and intervening when necessary.

2. Accountable Professional Practice

The CRNS prevents harm to and protects the public through supporting competent, accountable and ethical registered nurses practicing to their full scope of practice. We hold registered nurses accountable to practice safely, effectively and collaboratively consistent with Practice Standards and the Code of Ethics.

3. Partners in Health

The CRNS pursues and advances meaningful partnerships with the public, regulators and others within the health care sector to contribute to effective regulation, public safety and quality of care for the public. The CRNS is committed to engaging the public and incorporating the public's perspective, stories and expectations into our regulatory work.
